

# Certificate

**Name:**

**GDC Number:**

**Course attended:** Immediate Life Support Recertification

**Date:**

## **Aims**

To provide high-quality, scientific, knowledge and skills in the management of the deteriorating patient and apply current resuscitation guidelines to common events in clinical practice.

## **Objectives**

- recognise and treat the deteriorating patient using the ABCDE approach;
- undertake the skills of quality CPR and defibrillation (manual and /or AED) and simple airway manoeuvres;
- utilise non-technical skills to facilitate initial leadership and effective team membership

## **Learning content**

This course is intended to create an understanding of managing deteriorating patients and resuscitation practice to reduce potential risk factors to both patients and members of the dental team.

## **Development outcomes**

This course meets the criteria for the GDC's development outcomes C.

## **CPD**

3 CPD hours awarded.
